PROFILE

Software developer based in Addis Ababa, working primarily with the MERN stack and Next.js. I build real products, learn fast, and improve through shipping. Looking for roles where I can tackle real-world problems and grow alongside strong, collaborative teams.

WORK EXPERIENCE

IDEEZA

11/2025 – Present | Israel - Remote

Front End Developer

- Built and maintained the frontend of a large-scale product development platform, implementing core workflows and dashboards.
- Worked cross-functionally to integrate APIs and ensure performance, responsiveness, and UX consistency.

Nileode Technology

10/2024 – 2025

Full Stack Developer

Addis Ababa - Hybrid

- Delivered production-ready web applications across the full stack.
- Built responsive UI components and backend services in close collaboration with design and product teams, with a strong focus on performance, accessibility, and clean code.

Go2Cod

11/2024 – 01/2025

Front End Lead

- Frontend Lead for *Calmify*, a digital therapy platform, responsible for frontend design, architecture, and implementation.
- The project achieved **first place in a pan-African competition**, recognized for its impact and innovation in mental health support.
